

“The Best Choice for
Custom Welding, Vehicle Systems
and Fabrication”

Proud to Serve: **DND, RCMP, CSIS**

Who We Are

Davtair has built a reputation for innovative design and provides high quality, quick turnaround custom fabrication services. Our Ottawa-based team of highly skilled certified professionals is specialized in manufacturing and modifying custom trucks, trailers, emergency vehicles, military command vehicles and containers for the **Department of National Defence, RCMP, CSIS and other clients in the North American defence industry.**

Since 1988, we have met or exceeded Department of National Defence In Service Support operational requirements.

What We Do

Davtair manufactures turn-key solutions that are typically beyond the scope of most custom welding and metal fabrication companies. We use SOLIDWORKS 3D design software to draw complex diagrams and breathe life into new products that are customized to satisfy the very specific needs of our clients.

Why Consider Us

- We are a fully accredited Canadian SME, for IRB/ITB Value Propositions.
- We have a successful track record delivering highly competitive bids.
- We provide a full suite of services: design, build, train, repair, overhaul and follow-up.
- Our highly innovative techniques are adaptable and flexible to meet any operational requirements.
- We deliver solutions to our customers ahead of their deadline.
